## Education

### University of Missouri

Columbia, MO

Bachelor of Science in Computer Science, Minor in Mathematics

Anticipated: May 2027

**Organizations:** Upsilon Pi Epsilon (CS Honor Society), Mizzou Computing Association, Pi Kappa Phi

**Relevant Coursework:** Data Structures & Algorithms, Object Oriented Programming, Database Apps

## Projects

### Budgeting Buddy | HTML, CSS, JavaScript

June 2025

- Built a client-side personal finance application that tracks income, expenses, and savings goals, generating real-time budget summaries to support better financial decision making.
- Designed modular sections (Dashboard, Budget, and Savings) to improve data organization, maintainability, and user navigation
- Implemented input validation and dynamic calculations ensure accurate financial totals and spending breakdowns.

### Pollen Data Tracker | Python, FastAPI, React

August 2025

- Developed a full-stack web application that retrieve and processes real-time environmental data using external APIs.
- Built a FastAPI backend to parse JSON responses and transform raw pollen data into categorized risk levels and health insights.
- Integrated a React frontend with geolocation support to deliver location-specific data visualizations.

## Experience

### Article Student Living | Leasing Agent

September 2025 - Current

- Improved seasonal occupancy by 10% through structured follow-ups, tracking prospects, and optimizing tour workflows.
- Utilized internal software systems to manage leasing data, documentation, and customer records with attention to accuracy and process consistency.

## Leadership/Activities

### Head Merchandise Chair | Pi Kappa Phi Fraternity

November 2023 - November 2024

- Led 9 merchandise projects with a 10-member team, coordinating timelines, vendors, and deliverables to successfully sell 400+ units.
- Managed pricing, inventory tracking, and sales processes, balancing cost control with demand to support efficient operations.

## Skills

**Programming Languages:** Python, Java, JavaScript, HTML/CSS, C

**Frameworks & Libraries:** React, Next.js, FastAPI, Tailwind CSS

**Databases:** SQL, MySQL

**Developer Tools:** Git, VS Code, Eclipse, IntelliJ, Vercel
